REASONS FOR ALLOWANCE

Applicant's reply received on August 20, 2008 has been entered and the restriction requirement mailed on July 22, 2008 has been withdrawn and claims 1-8 were examined on the merits.

On page 1 of 1 of 1449 form submitted February 28, 2006, all of the foreign patent documents submitted contained only partial parts of the reference in English and as such only the portion presented in English was considered.

The following is an examiner's statement of reasons for allowance: The compounds of formula 1 (claim 1), formula 1a (claim 3), and formula 2 (claim 7) are free of the art. The closest art found was Roux et al. (US 6,730,695 B2) which taught compounds of a similar structure to applicant's claim 1, however in the instant application the OR6 of Roux et al. (formula I, abstract) is replaced with a Fluorine or in some embodiments the OR6 is left but a Fluorine is substituted at that position for the hydrogen. It would not have been obvious to one of ordinary skill in the art at the time of the invention to add the Fluorine, and applicant has shown how to make the compounds, including the intermediate formula 2, claimed in claim 7.

Applicant has used parenthesis in claims 1, 3, 6, and 7 when describing the R groups. This is taken as a form of punctuation and not indicative of the limitations on R

groups being optional, as those limitations are required for the compounds claimed to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

For these reasons stated *supra*, the composition and method of making claims 1-8 are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Meghan Finn whose telephone number is (571) 270-3281. The examiner can normally be reached on 8:30am-6pm Mon-Thu, 8:30am-5pm Friday (EST).
